Dear Flo,

I can't say enough about your product De-Solv-it! It is fast and easy to use. The bottom of our new shower is course and in the past I've used Ajax, Windex and other cleansers and have spent hours cleaning. Stains left on since the time of installment never came off, and with De-Solv-It, they did. Spray De-Solv-it on the floor of the shower, walls and also the glass and wipe off! The stains came off easily and quickly, as well as the hard water stains /mildew. I was truly impressed. It cuts my cleaning time, there is no need to switch cleansers one for the shower, one for the glass and tilex for the hard water/mildew stains. What a terrific smell!

You may be interested to know that I have Atopic Dermatitis skin and my skin easily is irritated by cleansers. I have no problems using this product without gloves and am amazed at the various surfaces and uses of De-Solv-it. I use this on my chrome stove top, sink, and bathroom countertops. The last time I visited Wal-mart, I did not see your product, although I looked for it. My only request - please keep it in stock!

Sincerely,

Nancy Dibler
