MEMORANDUM
March 19, 1991

TO: Dr. Abdulla Dabbagh
TRI/KFUPM

FROM: Nizar Tawfiq, Ph.D.
On-Site Coordinator
Oil Spill Response Center

SUBJECT: Use Tests for Orange Sol Desolvit.

Martech Marine has indicated that they want to use a solvent from this company.

They have supplied the enclosed documentation.

According to our procedures we should now test the material for use in cleaning booms and equipment.

Dear Dr. Gurney:

You are hereby notified that the technical product data submission on the dispersing agent "De-Solv-it Cleaner" has been received by the U.S. Environmental Protection Agency (EPA) and satisfies the data submission requirements contained in section 300.86 of Subpart H of the National Contingency Plan (NCP), as amended July 18, 1984. In accordance with the provisions in section 300.83, the technical product data will be maintained on file by the Emergency Response Division. Finally, pursuant to section 300.86, we will be listing "De-Solv-it Cleaner" on the NCP Product Schedule under dispersants. The On-Scene Coordinator may authorize the use of the dispersing agent on releases of oil into navigable waters on a case-by-case basis.

The listing of "De-Solv-it Cleaner" on the NCP Product Schedule does not constitute approval, certification, authorization, licensing, or promotion of the product; nor does it imply compliance with any criteria or minimum standards for such agents. Therefore, to avoid possible misinterpretation or misrepresentation, any label, advertisement, or technical literature that refers to the placement of the product on the NCP Product Schedule must either reproduce in its entirety this letter of notification, or include the disclaimer provided in section 300.86(e) of Subpart H. Failure to comply with these restrictions or any improper reference to EPA in an attempt to demonstrate approval or acceptance of the product will constitute grounds for removal of the product from the schedule.

You are required to notify EPA of any changes in composition or in the formulation or handling procedures for your product. On the basis of this notice, EPA may require retesting of the product.

If you have any questions concerning this letter, please contact Mr. John M. Cunningham of my staff on (202) 382-4130.

Sincerely yours,

Henry L. Longest II
